

NEW BEDFORD WELDING SUPPLY CHRISTMAS SALE!

While supplies last, sale ends December 31st, 2016

PART #	DESCRIPTION	SALE PRICE
MIL300837	Miller ArcStation 30FX Welding Table	\$279.99
MIL300850	X-Clamps 5"	\$39.99 each

The Miller ArcStation™ 30FX is the ideal work surface for the welder who requires portability and space savings. The 30FX ArcStation's unique folding design and convenient handle and wheels make it easy to take to the job site or move around the shop or garage. And since it folds down into a compact size, the ArcStation™ 30FX is easy to store.

Features

X-pattern tabletop on FX models makes clamping trouble-free. 1 1/2-in diameter steel tube frame offers stability and support. Wheels and a handle make the 74-lb bench easy to transport. Removable gun holder provides a convenient place to store your welding gun.

Weight capacity is 500 lb (227 kg).

30" x 30" work surface with 3/16-in X-pattern.

PART #	DESCRIPTION	SALE PRICE
MIL907692	Millermatic 125 Hobby MIG Welder (machine only)	\$549.00
	Millermatic 125 Hobby Package Deal	\$776.14

The Millermatic® 125 Hobby MIG welder is an entry level MIG welder with the quality and features of a Miller machine. The 125 Hobby is a 130 amp portable MIG welder that runs on standard 120 volt household current. It features Auto-Set, which eliminates the guesswork of setting voltage and wire feed speed for your MIG welding application. Simply select the material thickness and wire diameter while the welder is in the Auto-Set mode, and you are ready to weld. The Auto-Set control automatically sets your welder to the proper parameters. It is available when welding mild steel with solid wire and only works with .024 and .030 solid wires and C25 shielding gas (75% Argon, 25% CO2).

Manual MIG welding control is also available for those welders who wish to fine tune their welding arc. Manual welding mode must also be used when MIG welding aluminum, stainless steel or for flux-cored welding. The parameter door chart lists voltage and wire feed speed settings options.

The Millermatic 125 Hobby's cast aluminum wire drive system, factory installed gas solenoid and thermal overload protection are standard features typically found in welders costing hundreds of dollars more. The 125 Hobby also comes with Miller's True Blue® three-year warranty.

*Package includes Machine, regulator, gun, ground clamp w/ cable, cart, helmet, 40cuft 75/25 mix, & 11lbs roll of 70s-6 wire
